

Biography of Larry Detar CEH, CEI, CHFI, CISSP, ECSA, LPT, MCSE

Larry Detar is the Vice President of EC Council Global Services and an accomplished trainer, author, and speaker. He is a Certified Ethical Hacker (CEH), a credentialed Computer Hacking Forensics Investigator (CHFI), Certified Information Systems Security Professional (CISSP), EC-Council Certified Security Analyst (ECSA), Licensed Penetration Tester (LPT), and Microsoft Certified Systems Engineer (MCSE). As an EC-Council Certified Instructor (CEI) and Master Trainer, he teaches the EC Council's Ethical Hacking and Countermeasures, Computer Hacking Forensics Investigator and Certified Security Analyst/Licensed Penetration Tester certification courses.

He is on the Editorial Staff of BankInfoSecurity.com, the number one reference tool for the banking information security community and has authored several articles in information security and related areas. He speaks regularly to financial groups such as the National Association of Federal Credit Unions (NAFCU), the Credit Union Internal Auditors Association (CUIAA) and numerous Credit Union leagues in the United States and Canada on information systems security issues. He was a guest speaker at EC Council H@cker Halted International Security Conferences in Dubai, U.A.E., Mexico City, Mexico, Singapore and Guangzhou, China on the subjects of data security, network defense and social engineering.

Larry served for 6 years as a Microsoft Certified Trainer, Certified Internet Webmaster Instructor, Master Server Administrator and Security Analyst Instructor for New Horizons Computer Learning Centers, a world-wide leader in the computer training industry.

Prior to joining the EC Council, he worked as an IT Security Manager with the US-based accounting firm of Clifton Gunderson LLP. There, he planned, implemented and conducted risk assessments, vulnerability assessments, penetration tests, General Information Systems Controls audits and computer hacking forensics support for Clifton Gunderson's government, military, and financial clients nationwide. Larry has worked in the Information Technology industry for over 23 years, including 14 years with the United States Army Military Intelligence Corps in the United States and Germany.
